The Lansing Housing Commission's management's discussion and analysis is designed to (a) assist the reader in focusing on significant financial issues, (b) provide an overview of the Commission's financial activity, (c) identify changes in the Commission's financial position (its ability to address the next and subsequent year challenges), and (d) identify individual fund issues or concerns. The management discussion and analysis should be read in conjunction with the auditor's opinion letter and the financial statements.

Questions concerning any of the information provided in this report or requests for additional information should be addressed to the Commission's Executive Director or the Financial Manager.

Entity-Wide Statements

These statements include a Statement of Net Assets, which is similar to a Balance Sheet.

The Statement is presented in a format where assets, minus liabilities, equals "Net Assets", formerly known as equity. The Statement of Revenues, Expenses and Changes in Fund Net Assets (similar to an Income Statement). The Statement of Cash Flows is also included, which discloses net cash provided by, or used for operating activities, non-capital financing activities and from capital and related financing activities.

The combined financial statements show, in one place, all of the Commission's operations. Our statements are prepared on the accrual basis of accounting, which is similar to that used by most businesses. Under this method all revenues and expenses relating to the fiscal year are taken into account even if the cash involved has not actually been received or paid. The Financial Data Schedule included within the audit report contains all the programs of the Commission.

Fund Financial Statements

The Financial Data Schedule reports the Commission's operations in more detail. The Commission consists of exclusively Enterprise Funds. Enterprise funds utilize the full accrual basis of accounting. This method of accounting is similar to accounting used by the private sector.

Entity-Wide Financial Highlights

The Commission was awarded the following Federal Assistance:

	<u>Year 2005</u>	<u>Year 2004</u>
Operating Subsidies	\$1,983,183	\$1,727,978
Capital Fund Programs	1,403,137	1,750,738
Section 8 Vouchers	8,607,541	6,866,885
Section 8 New Construction	462,422	447,114
Shelter Plus Care	135,543	123,919

Combined Balance Sheet (condensed)

	2005 (millions of dollars)	2004 (millions of dollars)
Current Assets	\$ 6.32	\$ 5.81
Non-Current Assets	<u>17.77</u>	<u>19.01</u>
	24.09	24.82
Current Liabilities	.91	1.06
Non-Current Liabilities	<u>0.14</u>	<u>0.13</u>
	1.05	1.19
Net Assets	<u>23.04</u>	<u>23.63</u>

Major Factors Affecting the Combined Balance Sheet

The increase in Current Assets is due to unused Section 8 subsidy on hand at year end to be used for future Housing Assistance Payments. The balance in the Construction in Progress account was about \$470,000 less than a year ago, which contributed to the decrease in Non-Current Assets.

Capital Assets

At year end, the Lansing Housing Commission had over \$17 million invested in capital assets as reflected in the following schedule.

	2005	2004
Land	\$ 1,470,528	\$ 1,477,718
Buildings	40,868,056	39,979,565
Furniture, Equipment-Dwellings	537,688	550,443
Furniture, Equipment-Administrative	1,091,495	984,785
Construction in Progress	2,261,707	2,731,855
Accumulated Depreciation	<u>(28,458,178)</u>	<u>(26,709,556)</u>
Total	17,771,296	19,014,810

This year major additions were:

Capital Improvements Projects	
LaRoy Froh - Modernization	760,771
South Washington Park - Stair Tower Renovation	61,222
Equipment Purchases	96,357

Combined Statement of Income and Expenses (condensed)

The following schedule compares the revenues and expenses for the current and previous fiscal year.

	2005 (millions of dollars)	2004 (millions of dollars)
Revenues		
Tenant Rental Revenue and Other	\$ 1.68	\$ 1.64
HUD Grants	12.59	11.02
Interest Income	.08	.04
Other Income	<u>.17</u>	<u>.31</u>
Total Revenue	14.52	13.01
Expenses		
Administrative	2.38	2.40
Tenant Services	.009	.01
Utilities	.86	.78
Ordinary Maintenance	2.14	2.02
Protective Services	.015	.01
General Expenses	.40	.39
Loss on the Sale of Fixed Assets	(.055)	.001
Extra Ordinary Maintenance	.03	.01
Housing Assistance Payments	7.33	6.74
Depreciation	<u>1.85</u>	<u>1.79</u>
Total Expenses	14.95	14.15
Net Income (Loss)	<u>(.43)</u>	<u>(1.14)</u>

Major Factors Affecting the Combined Statement of Revenue and Expenses (condensed)

HUD Grants increased due to receiving more subsidy and more vouchers issued for the Section 8 Housing Choice Voucher Program. Most expenses showed moderate fluctuations either up or down. Utility cost increased 10%. Housing Assistance Payments were up about 9%. Total expenses increased 6% compared to last year, while total revenue increased 12%.

General Fund Budgetary Highlights-Public Housing

	Budget	Actual	Variance
Dwelling Rent	1,700,000	1,570,527	129,473
HUD Subsidy	1,983,183	1,983,183	
Other Revenue	<u>678,285</u>	<u>694,850</u>	<u>(16,565)</u>
Total Operating Receipts	4,361,468	4,248,560	112,908
Operating Expenditures			
Administrative	816,291	833,120	(16,829)
Tenant Services	27,850	8,621	19,229
Utilities	838,000	862,783	(24,783)
Maintenance	1,641,652	1,694,996	(53,344)
Protective Services	10,000	15,380	(5,380)
General	1,124,000	1,130,157	(6,157)
Other	<u>30,000</u>	<u>29,807</u>	<u>193</u>
Total Operating Expenses	<u>4,487,793</u>	<u>4,574,865</u>	<u>(87,072)</u>
Operating Income (Loss)	<u>(126,325)</u>	<u>(326,305)</u>	<u>199,980</u>

Total Operating Receipts fell about 3% short of the budget. Rent revenue was down from the prior year. The average rent per unit decreased 4%. Average water and sewer cost per ccf increased 6%. Maintenance materials were \$22,645 over budget, driven by increased costs, even though the total costs for the year was less than the previous year. Plus the average cost for the last two years was \$362,000 versus the budget of \$335,000.

Total Operating Expenses were greater than the amounts budgeted by \$87,072.

Economic Factors

Over time economic factors affect changes in the Commission's net assets and are an indicator of whether it is financially improving or deteriorating. Readers need to consider other non-financial factors such as changes in family composition, local inflationary, recessionary and employment trends, which can affect resident incomes and therefore the amount of rental income. HUD mandated program administrative changes, the physical condition of the Commission's capital assets, inflationary pressure on utility rates and supplies also need to be considered to assess the overall financial health of the Commission.

Independent Auditor's Report

I have audited the financial statements listed in the Table of Contents of the Lansing Housing Commission as of and for the year ended June 30, 2005. These financial statements are the responsibility of the Housing Commission's management. My responsibility is to express an opinion on the financial statements based on my audit.

I conducted my audit in accordance with auditing standards generally accepted in the United States of America and standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States. Those standards require that I plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. I believe that my audit provides a reasonable basis for my opinion.

In my opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the Lansing Housing Commission as of June 30, 2005, and the results of its operations and the cash flows for the year then ended, in conformity with accounting principles generally accepted in the United States of America.

In accordance with Government Auditing Standards, I have also issued my report dated September 14, 2005 on my consideration of the Lansing Housing Commission's internal control over financial reporting and on my tests of its compliance with certain provisions of laws, regulations, contracts, and grants.

The accompanying schedule of expenditures of federal awards is presented for purposes of additional analysis as required by U. S. Office of Management and Budget Circular A-133, Audits of States, Local Governments, and Non-Profit Organizations, and is not a required part of the financial statements. Such information has been subjected to the auditing procedures applied in the audit of the financial statements and, in my opinion, is fairly stated, in all material respects, in relation to the financial statements taken as a whole.

Required Supplemental Information

The Management's Discussion and Analysis and the required supplemental information are not a required part of the basic financial statements but is supplemental information required by the Governmental Auditing Standards Board. I have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the supplemental information. However, I did not audit the information and express no opinion on it.

Combining Financial Statements

My audit was conducted for the purpose of forming an opinion on the financial statements taken as a whole. The accompanying Financial Data Schedule is presented for purposes of additional analysis and is not a required part of the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in my opinion, if fairly stated in all material respects in relation to the financial statements taken as whole.

LANSING HOUSING COMMISSION
Notes to Financial Statements
June 30, 2005

NOTE 1: Summary of Significant Accounting Policies

Reporting Entity-

Lansing Housing Commission, Lansing, Michigan, (Commission) was created by ordinance of the city of Lansing. The Commission signed and Annual Contributions Contract (ACC) with the U.S. Department of Housing and Urban Development (HUD). The ACC requires the Commission to provide safe, sanitary and decent housing for qualifying senior and low income families.

The Commission consists of the following:

MI 58-2-12, 15	Low rent program	833	units
MI 33-V058-6, 15	Section 8 Vouchers	1700	units
MI 28-8023-1	New Construction	100	units

In determining the reporting entity, the manifestations of oversight, as defined by the Governmental Accounting Standards Board (GASB), Cod. sec 2100, were considered. The criteria include the following:

The nucleus of the financial reporting entity as defined by the Governmental Accounting Standards Board (GASB) Statement No. 14 is the "primary government". A fundamental characteristic of a primary government is that it is a fiscally independent entity. In evaluating how to define the financial reporting entity, management has considered all potential component units. A component unit is legally separate entity for which the primary government is financially accountable. The criterion of financial accountability are the ability of the primary government to impose its will upon the potential component unit. Based on the above criteria, a component unit is reported.

These criteria were considered in determining the reporting entity.

Basis of Presentation-

The accounts of the Commission are organized by the Catalog of Federal Domestic Awards (CFDA) numbers, in the Financial Data Schedule; each of which is considered a separate accounting entity. The operations of each fund are accounted for with a separate set of self balancing accounts that comprise its assets, liabilities, net assets, revenues, and expenditures, or expenses, as appropriate. Commission resources are allocated to and accounted for in individual funds based upon the purposes for which they are to be spent and the means by which spending activities are controlled.

Notes to Financial Statements- continued

Proprietary Funds

Enterprise Funds- Enterprise Funds are used to account for operations (a) that are financed and operated in a manner similar to private business enterprises- where the intent of the governing body is that the costs (expenses, including depreciation) of providing goods or services to the general public on a continuing basis be financed or recovered primarily through user charges; or (b) where the governing body has decided that periodic determination of revenues earned, expenses incurred, and/or net income is appropriate for capital maintenance, management control, accountability, or other purposes.

Basis of Accounting-

Basis of accounting refers to when revenues and expenditures or expenses are recognized in the accounts and reported in the financial statements. Basis of accounting relates to the timing of the measurements made, regardless of the measurement focus applied.

Proprietary Funds are accounted for using the accrual basis of accounting. The revenues are recognized when they are earned, and their expenses are recognized when they are incurred.

Prior to October 1, 1999, the Commission followed a basis of accounting consistent with the cognizant agency, the U. S. Department of Housing and Urban Development, HUD. Those practices differed from Generally Accepted Accounting Principals (GAAP); however, for all fiscal years beginning on or after October 1, 1999, HUD has required adherence to GAAP. Therefore, the current and future financial presentations will follow GAAP and the Financial Accounting Standards Board (FASB) pronouncements issued subsequent to November 30, 1989, unless those pronouncements conflict with or contradict GASB pronouncements.

Budgetary data-

Formal budgetary integration is employed as a management control device during the year in proprietary type funds. Budgets for funds are adopted on a basis consistent with generally accepted accounting principles (GAAP) for that fund type. The Commission adopts a budget annually, and amends the budgets as it feels necessary in order to maintain financial integrity.

Assets, Liabilities, and Net Assets-

Deposits & Investments

Deposits are stated at cost; the carrying amount of deposits is separately displayed on the balance sheet as cash and cash equivalents; investments are stated at cost which approximates market.

Notes to Financial Statements- continued

Cash Equivalents

Cash Equivalents represent investments purchased with a three month maturity or less; investments meeting this criteria are reclassified for financial statement purposes as cash.

Inventory

Inventory is valued at average cost. The Commission uses a weighted average price of remaining inventory to value the remaining stock. Inventory consist of expendable supplies held for consumption. The cost of supplies is recorded as an expenditure at the time the inventory is consumed.

Due to/From Other Funds

During the course of operations, numerous transactions occur between individual funds for goods or services; these receivables and payables are classified as "due from" or "due to" other funds on the Balance Sheet.

Fixed Assets

The accounting and reporting treatment applied to the fixed assets are determined by its measurement focus. All proprietary funds are accounted for on a cost of services or "capital maintenance" measurement focus. This means that all assets and all liabilities (whether current or non-current) associated with their activity are included on their balance sheets. Their reported fund equity (net total assets) is segregated into contributed capital and undesignated fund balance components. Proprietary fund type operating statements present increases (revenues) and decreases (expenses) in net total assets.

Depreciation of all exhaustible fixed assets used by proprietary funds is charged as an expense against their operations; depreciation has been provided over the estimated useful lives using the straight line method. The estimated useful lives are as follows:

Buildings and Improvements	40 years
Equipment	3-10 years

Compensated Absences

Compensated Absences

Sick leave and other compensated absences with similar characteristics have been accrued as a liability. The amount accrued was based on the probability that the Commission will compensate the employees for the benefits through cash payments as a condition of the employees' termination or retirement.

Notes to Financial Statements- continued

Note 2: Cash and Investments

The composition of cash and investments are as follows:

Cash:

General Fund Checking Accounts	\$ 654,077
Security Deposit Checking	10,918
Investments- Cash Equivalents	3,715,940
Petty Cash	<u>2,264</u>

Savings Account	3,761,424
Less: Cash Equivalents, above	<u>(3,715,940)</u>
Financial Statement Total	\$ <u>745,484</u>

Generally the Commission classifies cash and investments with the following risk assumptions:

- 1) Insured or registered in the Commission's name.
- 2) Uninsured or unregistered, held by a broker in the Commission's name.
- 3) Uninsured or unregistered, held by a broker not in the Commission's name.

Significant Account Policies

The accounting policies of the Commission conform to generally accepted accounting principles as applicable to governmental proprietary funds. The financial statements contained in the Commission's annual audit report are prepared on the accrual basis of accounting; revenues are recognized when earned, expenses are recorded when the related services or product are received.

Risk management

The Commission is exposed to various risks of loss related to property loss, torts, error and omissions and employee injuries. The Commission purchases commercial insurance to cover the risks of these losses. The Commission had the following insurance in effect during the year:

<u>Types of Policies</u>	<u>Coverage's</u>
Property	\$ 65,130,000
General Liability	5,000,000
Automobile Liability	1,000,000
Dishonesty Bond	1,000,000
Worker's Compensation and other riders: minimum coverage's required by the State of Michigan	

LANSING HOUSING COMMISSION
Status of Prior Audit Findings
June 30, 2005

The prior audit of the Lansing Housing Commission for the period ended June 30, 2004, contained two audit findings; the corrective actions are as follows:

- 1) Tenant Accounting Discrepancies- Public Housing, the issues involved in this finding were resolved, however, income verification will be a current year finding.
- 2) Tenant Accounting Discrepancies- Section 8 Program, the issues involved in this finding were resolved, however, income verification will be a current year finding.

LANSING HOUSING COMMISSION
Report on Compliance Applicable with Requirements to
Each Major Program and on Internal Control over
Compliance in Accordance with OMB Circular A-133
June 30, 2005

Compliance

I have audited the compliance of Lansing Housing Commission with the types of compliance requirements described in the U. S. Office of Management and Budget (OMB) Circular A-133 Compliance Supplement that are applicable to each of its major federal programs for the year ended June 30, 2005. Lansing Housing Commission's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs. Compliance with the requirements of laws, regulations, contracts, and grants applicable to each of its major federal programs is the responsibility of Lansing Housing Commission's management. My responsibility is to express an opinion on Lansing Housing Commission's compliance based on my audit.

I conducted my audit of compliance in accordance with generally accepted auditing standards; the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States; and OMB Circular A-133, Audits of States, Local Governments, and Non-Profit Organizations. Those standards and OMB Circular A-133 require that I plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about Lansing Housing Commission's compliance with those requirements and performing such other procedures as I considered necessary in the circumstances. I believe that my audit provides a reasonable basis for my opinion. My audit does not provide a legal determination of Lansing Housing Commission's compliance with those requirements.

As described in the following findings in the accompanying schedule of findings and questioned costs, the Commission failed to comply with one or more of the following compliance requirements: Activities allowed or unallowed, Allowable Costs/cost Principles, Cash Management, Davis-Bacon Act, Eligibility, Procurement, Reporting, or other compliance matters. Compliance with such requirements is necessary, in my opinion, for the Commission to comply with the requirements applicable to that program. The following programs, findings and compliance matters are detailed in the schedule of findings and questioned cost:

<u>Finding</u>	<u>Audit Number</u>	<u>Compliance Requirements</u>
Low Rent Public Housing:		
Tenant Accounting Discrepancies	05-1	Eligibility; Program Income
Section 8 Housing Choice:		
Tenant Accounting Discrepancies	05-2	Eligibility; Program Income

In my opinion, except for the noncompliance described in the preceding paragraph, the Commission complied, in all material respects, with the requirements referred to above that are applicable to each of its major federal programs for the year ended June 30, 2005.

Internal Control over Compliance

The management of Lansing Housing Commission entity is responsible for establishing and maintaining effective internal control over compliance with the requirements of laws, regulations, contracts, and grants applicable to federal programs. In planning and performing my audit, I considered Lansing Housing Commission's internal control over compliance with requirements that could have a direct and material effect on a major federal program in order to determine my auditing procedures for the purpose of expressing my opinion on compliance and to test and report on the internal control over compliance in accordance with OMB Circular A-133.

I noted certain matters involving the internal control over compliance and its operation that I considered to be reportable conditions. Reportable conditions involve matters coming to my attention relating to significant deficiencies in the design or operation of the internal control over compliance that, in my judgement, could adversely affect the Commission's ability to administer a major federal program in accordance with the applicable requirements of laws, regulations, contracts, and grants. Reportable conditions are described in the accompanying schedule of findings and questioned costs as referred to above.

A material weakness is a condition in which the design or operation of one or more of the internal control components does not reduce to a relatively low level the risk that noncompliance with the applicable requirements of laws, regulations, contracts, and grants that would be material in relation to a major federal program being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. My consideration of the internal control over compliance would not necessarily disclose all matters in the internal control that might be reportable conditions and, accordingly, would not necessarily disclose all reportable conditions that are also considered to be material weaknesses. However, I believe that none of the reportable conditions described above is a material weakness.

This report is intended for the information of management, federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.

LANSING HOUSING COMMISSION
Report on Compliance and on Internal Control over
Financial Reporting Based on an Audit of Financial
Statements Performed in Accordance with
Government Auditing Standards
June 30, 2005

I have audited the financial statements of Lansing Housing Commission, Lansing, Michigan, as of and for the year ended June 30, 2005, and have issued my report thereon dated September 14, 2005. I conducted my audit in accordance with generally accepted auditing standards and the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States.

Compliance

As part of obtaining reasonable assurance about whether Lansing Housing Commission's financial statements are free of material misstatement, I performed tests of its compliance with certain provisions of laws, regulations, contracts, and grants, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, I do not express such an opinion. The results of my tests disclosed instances of noncompliance that are required to be reported under Government Auditing Standards; see the findings and questioned cost section of this audit report.

Internal Control Over Financial Reporting

In planning and performing my audit, I considered Lansing Housing Commission's internal control over financial reporting in order to determine my auditing procedures for the purpose of expressing my opinion on the financial statements and not to provide assurance on the internal control over financial reporting. My consideration of the internal control over financial reporting would not necessarily disclose all matters in the internal control over financial reporting that might be material weaknesses. A material weakness is a condition in which the design or operation of one or more of the internal control components does not reduce to a relatively low level the risk that misstatements in amounts that would be material in relation to the financial statements being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. I did not note any instances which may be considered weaknesses that are required to be reported under Government Auditing Standards.

This report is intended for the information of management and federal awarding agencies and pass-through entities. However, this report is a matter of public record and its distribution is not limited.

LANSING HOUSING COMMISSION
Schedule of Findings & Questioned Cost
June 30, 2005

The following findings of the Lansing Housing Commission, for the year ended June 30, 2005, was discussed with the Executive Director, Mr. Chris Stuchell, in an exit interview conducted September 14, 2005.

Finding 05-1:

Tenant Accounting Discrepancies, Public Housing Program.

Out of 19 files tested the following discrepancies were discovered:

5 file lacked third party income verification.

Recommendation

HUD requires the above verifications and documentation in tenant files; non compliance with the above requirements could result in miscalculated rents.

I would recommend the Commission review the recertification process to insure compliance with HUD requirements.

Reply

Four of the cases cited have been corrected; the fifth will be reverified in the next 14 days.

Finding 05-2:

Tenant Accounting Discrepancies, Section 8 Program.

Out of 27 files tested the following discrepancies were discovered:

5 files lacked third party income verification.

Recommendation

HUD requires the above verifications and documentation in tenant files; non compliance with the above requirements could result in miscalculated rents.

I would recommend the Commission review the recertification process to insure compliance with HUD requirements.

Reply

Three of the five cited have been corrected and the other two will be corrected within 14 days.
